EXAMINER'S AMENDMENT

1. Newly submitted claims 3-4 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

- Invention II (**claims 3-4**) and invention I (**claims 1-2**) are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be practiced by another and materially different process. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

2. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, **claims 3-4** are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. This application is in condition for allowance except for the presence of **claims 3-4** to an invention non-elected without traverse. Accordingly, **claims 3-4** have been cancelled (see examiner's amendment below).

Art Unit: 3743

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

5. Authorization for this examiner's amendment was given in a telephone interview with Steven H. Noll on September 7, 2004.

6. The application has been amended as follows:

- In **claim 1**, on page 4 of Amendment A, line 12, "unit mode applying" has been deleted and – unit in a recruitment mode by applying – has been inserted therefor; and
- **Claims 3-4** have been deleted.

7. The following is an examiner's statement of reasons for allowance: the descriptive functional material as recited in **claim 1** regulating operation of a pneumatic unit and a measurement system in combination with a control system has not been taught nor suggested in the prior art of record.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
